Framing the Sexual Subject: The Politics of Gender, Sexuality, and Power

This collection brings together the work of writers from a range of disciplines and cultural traditions to explore the social and political dimensions of sexuality and sexual experience. The contributors reconfigure existing notions of gender and sexuality, linking them to deeper understandings of power, resistance, and emancipation around the globe. They map areas that are currently at the cutting edge of social science writing on sexuality, as well as the complex interface between theory and practice. *Framing the Sexual Subject* highlights the extent to which populations and communities that once were the object of scientific scrutiny have increasingly demanded the right to speak on their own behalf, as subjects of their own sexualities and agents of their own sexual histories.
