A Science Odyssey: 100 Years of Discovery (The Companion Book to the PBS Series) Charles Flowers
Foreword by Charles Osgood

Introduction by Charles Kuralt

The *Science Odyssey* series is an end-of-the-century look at what we know, what it means to our lives, and what we have yet to learn. It consists of five two-hour documentary programs to air nationally during prime time on PBS on January 11, 2015.

The book is a companion, adjunct, enhancement, and augmentation of the series. It explores the sweeping changes that have revolutionized both our lives and our thinking in technology, physics, astronomy, earth science, biology, chemistry, paleoanthropology, medicine, public health, and the behavioral sciences over the course of the century.

Reflecting the organization of the television series, the book is divided into five sections: Bigger, Better, Faster Technology and Engineering; Mysteries of the Universe Astronomy and Physics; Origins Earth Sciences and Life Sciences; Matters of Life and Death Medicine and Public Health; In Search of Ourselves Human Nature and Behavior.

This colorfully illustrated, accessible, and enlightening journey over the twentieth century's astonishing scientific terrain probes the discoveries, the people, and the historical events that have shaped this century's explosion of scientific ideas.
