An audio exploration of Human Potential, based on the work of the best-known, best-documented and most accurate psychic in American history.

The first tape in this remarkable program is a comprehensive overview of Edgar Cayce's life and work, detailing the discovery of his phenomenal psychic "gift" as a boy, and how in his adult life he channeled this gift into "readings" to help and heal thousands. The extraordinary events of Cayce's life are told through rare recordings of his son, Hugh Lynn Cayce, and his personal stenographer, Gladys Davis, who transcribed thousands of his readings.

Tape two provides specific exercises, self-tests and attunement procedures for you to experiment with your own psychic skills using the Cayce methods: focusing on precognition, telepathy and clairvoyance, and a self-hypnosis narration to induce ESP dreams.

This practical guide will teach you to enhance the psychic powers you already possess, and use them to meet the challenges and improve the quality of your daily life.
