Learning Java, Second Edition

Patrick Niemeyer, Jonathan Knudsen

Learning Java, Second Edition Patrick Niemeyer, Jonathan Knudsen

Learning Java provides an accessible yet comprehensive introduction to the programming language that has changed the way we think about computing. Java has become the language of choice for a wide variety of applications: web services, secure network systems, XML-based tools, reusable components, and mission-critical enterprise systems. *Learning Java* is filled with easy-to-follow code examples that guide you through Java's many features, APIs, and facilities. This new edition of *Learning Java* has been expanded and updated for Java 2 Standard Edition SDK 1.4. It comprehensively addresses important topics such as web applications, servlets, and XML that are increasingly driving enterprise applications. This edition provides full coverage of all Java 1.4 language features including assertions and exception chaining as well as new APIs such as regular expressions and NIO, the new I/O package. New Swing features and components are described along with updated coverage of the JavaBeans component architecture using the open source NetBeans IDE the latest information about Applets and the Java Plug-in for all major web browsers. The accompanying CD-ROM provides all you need to start working with Java immediately. In addition to the many example programs from the book, the CD includes the complete J2SE SDK 1.4, the NetBeans IDE, the Jakarta Project's Ant make utility and Tomcat application server as well as BeanShell, a simple open source Java scripting language developed by author Pat Niemeyer.

From reader reviews:

Jeffrey Brill:

The book Learning Java, Second Edition make one feel enjoy for your spare time. You can use to make your capable considerably more increase. Book can to get your best friend when you getting stress or having big problem along with your subject. If you can make examining a book Learning Java, Second Edition to get your habit, you can get more advantages, like add your own capable, increase your knowledge about some or all subjects. You may know everything if you like open up and read a e-book Learning Java, Second Edition. Kinds of book are several. It means that, science reserve or encyclopedia or some others. So , how do you think about this e-book?

Ruth Walker:

Here thing why this Learning Java, Second Edition are different and trustworthy to be yours. First of all looking at a book is good nonetheless it depends in the content of computer which is the content is as scrumptious as food or not. Learning Java, Second Edition giving you information deeper and in different ways, you can find any publication out there but there is no book that similar with Learning Java, Second Edition. It gives you thrill examining journey, its open up your own personal eyes about the thing which happened in the world which is might be can be happened around you. It is easy to bring everywhere like in playground, café, or even in your technique home by train. If you are having difficulties in bringing the paper book maybe the form of Learning Java, Second Edition in e-book can be your choice.

Deborah Wilkerson:

Spent a free a chance to be fun activity to do! A lot of people spent their free time with their family, or their particular friends. Usually they accomplishing activity like watching television, about to beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? May be reading a book could be option to fill your totally free time/ holiday. The first thing that you will ask may be what kinds of e-book that you should read. If you want to try look for book, may be the guide untitled Learning Java, Second Edition can be great book to read. May be it might be best activity to you.

Dawn Nelson:

This Learning Java, Second Edition is great reserve for you because the content which is full of information for you who always deal with world and still have to make decision every minute. This book reveal it details accurately using great arrange word or we can declare no rambling sentences inside it. So if you are read it hurriedly you can have whole data in it. Doesn't mean it only will give you straight forward sentences but difficult core information with attractive delivering sentences. Having Learning Java, Second Edition in your hand like getting the world in your arm, details in it is not ridiculous just one. We can say that no book that offer you world in ten or fifteen tiny right but this book already do that. So , it is good reading book. Hey Mr. and Mrs. busy do you still doubt that will?
