Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition)

Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition)

Microbiological risk assessment (MRA) is one of the most important recent developments in food safety management. Adopted by Codex Alimentarius and many other international bodies, it provides a structured way of identifying and assessing microbiological risks in food. Edited by two leading authorities, and with contributions by international experts in the field, Microbiological risk assessment provides a detailed coverage of the key steps in MRA and how it can be used to improve food safety.

The book begins by placing MRA within the broader context of the evolution of international food safety standards.

Part one introduces the key steps in MRA methodology. A series of chapters discusses each step, starting with hazard identification and characterisation before going on to consider exposure assessment and risk characterisation. Given its importance, risk communication is also covered. Part two then considers how MRA can be implemented in practice. There are chapters on implementing the results of a microbiological risk assessment and on the qualitative and quantitative tools available in carrying out a MRA. It also discusses the relationship of MRA to the use of microbiological criteria and another key tool in food safety management, Hazard Analysis and Critical Control Point (HACCP) systems.

With its authoritative coverage of both principles and key issues in implementation, Microbiological risk assessment in food processing is a standard work on one of the most important aspects of food safety management.

- Provides a detailed coverage of the key steps in microbiological risk assessment (MRA) and how it can be used to improve food safety
- Places MRA within the broader context of the evolution of international food safety standards
- Introduces the key steps in MRA methodology, considers exposure assessment and risk characterisation, and covers risk communication

From reader reviews:

Annette Carroll:

As people who live in often the modest era should be upgrade about what going on or details even knowledge to make them keep up with the era which is always change and progress. Some of you maybe may update themselves by reading books. It is a good choice for yourself but the problems coming to an individual is you don't know which one you should start with. This Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition) is our recommendation so you keep up with the world. Why, because book serves what you want and need in this era.

Bruce Healy:

Often the book Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition) will bring you to definitely the new experience of reading a book. The author style to spell out the idea is very unique. If you try to find new book to see, this book very suited to you. The book Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition) is much recommended to you to see. You can also get the e-book from official web site, so you can quickly to read the book.

Edward Johnson:

The actual book Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition) has a lot details on it. So when you read this book you can get a lot of help. The book was authored by the very famous author. The author makes some research ahead of write this book. This particular book very easy to read you can get the point easily after looking over this book.

Katie Broadnax:

That e-book can make you to feel relax. This particular book Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition) was bright colored and of course has pictures on there. As we know that book Microbiological Risk Assessment in Food Processing (Woodhead Publishing Series in Food Science, Technology and Nutrition) has many kinds or variety. Start from kids until teens. For example Naruto or Private investigator Conan you can read and think that you are the character on there. Therefore , not at all of book are usually make you bored, any it offers up you feel happy, fun and relax. Try to choose the best book for you personally and try to like reading which.
