All About Women: What Big Sister Doesn't Want You to Know Simon Sheppard

'The whole education of women ought to be relative to men. To please them, to be useful to them, to make themselves loved and honoured by them, to educate them when young, to care for them when grown, to counsel them, to console them, and to make life sweet and agreeable to them -- these are the duties of women at all times and what should be taught them from their infancy.' Jean-Jacques Rousseau, quoted on the back cover of the print edition.

'All About Women' wasn't meant to be a fun book, but by being so unblushingly forthright -- in order to cram as much information as possible into its 52 pages -- it became so. This outrageously politically incorrect book is essential reading for men, and feminists looking for a hate figure will also find it useful. In 'dip into' format with quotes by Darwin etc. about the nature and inferiority of women. "I wish I'd had this in my pocket as a youth" remarked one reader. Masses of solid information with no punches pulled. This second edition includes an introduction by Jack Donovan, a few amendments and some additional material.

The print edition has ISBN 9781901240306.
