The Other Brahmins: Boston's Black Upper Class, 1750-1950 Adelaide Cromwell

Adelaide Cromwell's pioneering work explores race and the social caste system in an atypical northern environment over a period of two centuries. Based on scholarly sources, interviews, and questionnaires, the study identifies those blacks in Boston who exercised political, economic, and social leadership from the end of the eighteenth century to the middle of the twentieth. The central focus is a comparison of black and white upper-class women in the 1940s.

This rare look at a black social microcosm not located in the South is seminal and timely. Because it concludes at a critical period in American history, *The Other Brahmins* paints a colorful backdrop for evaluating subsequent changes in urban sociology and stratification. In a groundbreaking study, Cromwell effectively challenges the simplistic notions of hierarchy as they pertain to race.
