Abby Livingston watches over her silent brother Sam, who is small for his age and constantly teased. She is annoyed by her science teacher Professor Eldritch, who keeps asking his students to report anything unusual to him, such as unexpected caves, doors going nowhere, and the like. One evening Sam discovers a mysterious hole underneath a chestnut tree in their back yard. Professor Eldritch encourages them to explore the opening. Unfortunately, the hole turns out to be bottomless, and the three of them fall for miles... Above and Beneath is a novel that ranges from Pittsburgh to the depths of the Earth and beyond the moon, and involves the struggles of Abby to get her and Sam back home. She travels through hidden civilizations, unexpected dangers, and a perilous romance. Above and Beneath is suitable for all ages. Note: the cover has been revised; this is not a sequel!
