European Garden Flora: A Manual for the Identification of Plants Cultivated in Europe, Both Out-of-Doors and under Glass (Volume 2)

The European Garden Flora is the definitive manual for the accurate identification of cultivated ornamental plants. It is designed to meet the highest scientific standards but the vocabulary is kept as uncomplicated as possible so that it is fully accessible to the informed gardener and landscape architect as well as to the professional botanists. Although based upon Europe the series will be an extremely useful reference on plants in cultivation throughout the world. Families, genera and species are described, keys are provided and guidance is given on the cultivation of each genus. This volume is the first to be published in a series of six; it contains accounts of 17 families, 402 genera and 1663 species of monocotyledons.
