Terrorists invade a black-tie dinner and abduct an important scientist who has been working on an idea to create a fuel cheaper and better for the environment than oil. The scientist happens to be a close personal friend of the President. The President calls in the trusted men of Seal Team Six to run the rescue operation. Led by team leader Riley and his pupil Shawn Bowe, the Seals have to act fast.

Through CIA intelligence, they learn that the man behind the abduction is a man known as Jack Spades, a nomadic oil baron who wants to steal the scientist's idea. Spades is holding the scientist hostage in an abandoned oil rig 3 miles off of the coast of Florida. Team Six must be careful on their approach, dodging sharks in the water and somehow sneaking past Spades' hired mercenaries. The race is on for Seal Team Six to rescue the scientist from the terrorist and his goons before it's too late.
